

BENEFITS

- 1 INCREASE THE PRODUCTIVITY OF WAREHOUSE WORKERS AND PROCESSES** by replacing inefficient and paper-based activities with mobile capabilities in an easy-to-use, full-featured mobile solution
- 2 ENSURE UNCOMPROMISED ACCURACY** by letting workers scan and check items at the time of a transaction, so they will pick and move the right items
- 3 REDUCE COSTS AND SAVE TIME** by efficiently processing each transaction as it happens, enabling workers to enter information directly into their mobile screens
- 4 IMPROVE INVENTORY MANAGEMENT** with real-time visibility of inventory data
- 5 DEPLOY QUICKLY AND MANAGE COLUMBUS AX ANYWHERE - LOGISTICS WITH MINIMAL EFFORT**, taking advantage of full integration with Microsoft Dynamics AX and existing IT skills
- 6 CHOOSE THE MOST AFFORDABLE OPTIONS THAT BEST FIT YOUR BUSINESS** when it comes to mobile devices, operating systems, and versions of Columbus AX Anywhere - Logistics

COLUMBUS AX ANYWHERE LOGISTICS

Columbus AX Anywhere - Logistics is a mobile app for Microsoft Dynamics AX that supports the most common processes in your warehouse.

Instead of manually receiving goods, picking sales orders, or moving pallets, your warehouse workers can use mobile devices with barcode scanners to perform their tasks with optimal accuracy, speed, and consistency. They can rely on a mobile software tool that is easy to learn and use and that instantly lets them enter, update, and view information. Because Columbus AX Anywhere - Logistics integrates fully with Microsoft Dynamics AX, you can centrally control and direct logistics processes based on real-time information. You also can minimize paper-based tasks and associated costs for paper, ink, and printers.

Columbus AX Anywhere - Logistics is one of the Mobility Solutions for Microsoft Dynamics AX, which also include apps that support production control, retail, and sales.

Supported Processes

Columbus AX Anywhere - Logistics comes with a large set of mobile warehousing processes. You can implement them out-of-the-box or customize them to meet your specific requirements.

Goods receipt on purchase orders	Receive material that has been ordered on a purchase order.
Inventory movement	Move inventory from one warehouse location to another.
Inventory cycle counts	Count inventory and create a counting journal.
Sales order picking	Pick items for a sales or transfer order.
Profit or loss stock adjustment	Update the inventory adjustment journal.
Item information	View item inventory by location.
Pallet support for all processes	Receive, move, or transfer pallets.
Item transfer picking and receipt	Pick and receive items for transfer orders.
Consolidated picking	Pick multiple orders, such as sales or transfer orders.
Production picking	Pick items for a production order.
Production receipt	Report as finished.
Serial numbers, batch numbers, and expiration dates for processes and pallets	For all processes as well as pallets, the app supports serial numbers, batch numbers, and expiration dates.
Data capture and printing	The app supports barcode scanning, RFID, and integrated printing.

Columbus AX Anywhere - Logistics runs on any device with a web browser

FEATURES

Connected business management

Columbus *AX Anywhere - Logistics* has been designed for optimal support of your logistics business processes. You can deploy our solutions to support production control, retail, and sales together with Columbus *AX Anywhere - Logistics*.

Ease of use

Like the other Columbus *AX Anywhere* solutions, Columbus *AX Anywhere - Logistics* is very easy to use. The app guides warehouse employees through their tasks step by step.

In-built process consistency

The solution's workflow-based design ensures that workers take all necessary steps and helps them avoid errors.

Optimized for performance

Columbus *AX Anywhere - Logistics* performs at an extremely fast pace to accelerate the performance of warehouse workers' tasks.

Powerful, streamlined approach to customization

If you have the skills to implement and manage Microsoft Dynamics AX, you can also implement and customize Columbus *AX Anywhere* solutions to suit your needs, taking advantage of the Columbus *AX Anywhere* Framework. Built entirely within Dynamics AX, the Framework enables you to use your expertise to customize the solution without leaving the Dynamics AX environment.

Extensibility for other usage scenarios

Columbus *AX Anywhere* solutions support barcode scanning and RFID.

Columbus *Mobility*[®]

Once you *know* how...

ABOUT COLUMBUS:

Columbus is an industry-based consultancy and award-winning technology developer focused on the manufacturing, food processing, and retail industries. We are the preferred consultancy for ambitious companies wanting to streamline business processes, improve operational efficiencies, reduce costs, and improve visibility into their businesses.
