

# Updating your solution is easier than you think.

Discover which Microsoft Dynamics GP version is right for you

## Microsoft Dynamics GP Upgrade Services and Version Comparison

A solution that is easy to use, quick to implement, and has the power to support your business ambitions. Microsoft Dynamics GP offers significant enhancements to workflow capabilities, user experience, functionality, Business Intelligence and Cloud capabilities. Columbus can help you understand the business benefits of upgrading or reimplementing your solution and how best to get there.

### Why upgrade or reimplement?

In today's modern world, businesses are running at a faster pace than ever before. If you're not leveraging your software solutions properly you may find yourself a step behind the competition.

Newer versions of Dynamics GP include powerful enhancements, which translates into higher productivity and cost savings for your business.

### By updating your solution you can:

- Gain more from your IT investment
- Leverage new functionality
- Deliver improved productivity
- Increase software integration
- Decrease future maintenance cost
